OnlyFans is a social media website where creators charge a monthly fee for “fans” to follow their account. After paying your subscription fee, users gain access to your feed where they can view your exclusive content. Creators keep 80% of the money generated by their account, whilst the remaining 20% goes to OnlyFans.

OnlyFans is very popular in the adult industry due to it’s unrestricted content policy, however it also hosts successful content creators from other genres such as physical fitness and modelling.

### Getting Started

OnlyFans is a premium social media site, every creator profile has the following tabs:

- **Posts** – All your content can be seen here, photos, videos, audio, stories, live videos, updates and more.
- **Photos** – Your photos are shown here
- **Videos** – Your video content is shown here
- **Audio** – Your voice recordings are kept here
- **Likes** – Total number of likes received is displayed here, fans can also see your content they “liked”.
- **Fans** – Your number of fans are shown here, fans themselves are not visible.

## OnlyFans overview

Before we look at how to setup your OnlyFans account and how you can generate an online income, first lets have quick look at the features available to creators.

As you can see, there is a rich amount of features available to creators, with a simple and intuitive interface. We'll go through these options in detail below:

### Post to your feed

Post a status update message

### Attach media

Post a photo, multiple photos and videos to your feed.

**PURCHASED AT BUYSSELLMETHODS.COM**

**BUY OR SELL EARNING METHODS**

### **Record your voice**

Record your voice and upload it as an audio track.

### **Add a poll**

Choose a duration for your poll, add your question, add your answers and post it to your feed. Your fans can then vote by clicking on one of the answers available.

### **Choose an expiration period for your post**

Choose how long you want your post to appear on your feed before being deleted automatically.

### **Schedule posts**

Pick a time and date to automatically publish a post you have created.

### **Add a price to your post**

To price lock a post, your OnlyFans subscription price has to be set to “Free”. You can then price lock your post by adding a price.

You can only price lock posts with media such as photos, audio or videos. Once on your feed, fans can “unlock” the post by paying the price you set.

**BUY OR SELL EARNING METHODS**

To price lock a post on OnlyFans, click on the create post button, add your media, then click on the dollar tag icon, set your price and post it to your timeline.

Important Note: Some OnlyFans users can't see the "Post Price" button when creating a post. This is most likely because your OnlyFans account has a subscription price. Only "Free" OnlyFans accounts can price lock posts.

**PURCHASED AT BUYSSELLMETHODS.COM**

BUY OR SELL EARNING METHODS

A good strategy is to create two OnlyFans accounts, a free account and a premium (paid) account. On the free account you post exclusive content but only share your best content through price locked posts. You can also use your free page to promote your premium page directly.

### **Go Live with your subscribers**

Set a date and time to go live with your subscribers. Once your live stream is over you can upload it as a normal video, this way if some of your fans missed your live stream they can catch up later.

**Tip:** You can run polls asking your subscribers to vote on what they want to see in a live stream, vote on any popular questions they have and on the best times to go live.

### **Add to your story**

Similar to Instagram and Facebook, OnlyFans has a “story” feature, where you can upload photos or videos which are only visible for a certain amount of time. You can also save stories as highlights on your profile.

### **Receive tips**

Fans can send you tips directly through your posts, during a live stream and through your messages. You can also sell custom content in return for tips from your fans.

### **Send messages**

Speak with fans and other OnlyFans creators through the messages. You can also use the messages to send Pay Per View (PPV) content to your fans.

## Edit your OnlyFans profile

The first thing you need to do is set a username and display name for your OnlyFans account:

- **Username** = This name will appear in your URL and “@”.
- **Display Name** = This is the name that shows up above your username on your feed and your profile, since this is not a username you can add spaces and make it look more attractive.

Next you need to add a **cover image** and a **profile photo**. The cover image is a large banner that appears behind your profile picture. Upload a cover image that is related to the content that you will post on your feed, however keep in mind that full nudity is not allowed in your banner or display picture.

Next upload a profile picture for your account. As you can see, the “**Subscription Price (\$/Per Month)**” section is grayed out and cannot be accessed. This is because you need to add a bank account to your OnlyFans account and confirm that you are over 18.

**PURCHASED AT BUYSSELLMETHODS.COM**

BUY OR SELL EARNING METHODS

You can your personal details by clicking on **“add a bank account”** written in blue, I highlighted this in the image above. We are going to go through this process in a moment so you can continue editing your profile for now.

Under the “Subscription Price” section you have the “About” section. Here is where you can add a bio for your fans to see when they come across your profile.

When fans view your profile your bio will be hidden by the label **“Show more info”**, clicking on that label will reveal your bio and additional information including website links.

After clicking “Show more info” and revealing your bio, the tab changes to **“Show less”** if fans want to hide your bio again.

Use your bio section to let your fans know what they will gain access to when they subscribe. Tell fans the kind of content that you post, for example it could be workout videos, cosplay photos, clothing hauls, modelling photosets etc.

Try and be as descriptive as possible, this will improve your chances of gaining new subscribers since you are making it clear whats fans will be getting for their money.

You can also let fans know how often you post, if you post regularly, you can add phrases like **“daily uploads”** or **“new content added weekly”** to your bio. If you offer custom content (workout plans, recipes, photo or video requests, adult content etc.), add this to your bio too.

**PURCHASED AT BUYSSELLMETHODS.COM**

**BUY OR SELL EARNING METHODS**

Under the “**About**” section you have:

- **Location** = You can add your location here.
- **Website URL** = If you have website you want to promote to your fans, add the URL here.
- **Amazon Wishlist** = If you have an Amazon wish list, insert the URL here.
- **Spotify Account** = You can connect your Spotify account here by clicking on the “**Connect**” button.

Once you have finished editing your OnlyFans account, click on the blue “Save changes” button.

### **Add a bank account to earn money**

Add a bank account:

#### Step 1 – Submit your personal details

Note: Adding your bank account to your OnlyFans account is done in 2 stages.

1. Submit your personal details and ID for approval by OnlyFans.
2. After your account is approved, add your bank account and set your monthly subscription price.

To start earning money as an OnlyFans creator you need to submit your personal details for review, once the OnlyFans team have reviewed and approved your account, you’ll be able to add your bank account.

To submit your personal details you can scroll back up and click on **“add a bank account”** under the **“Subscription Price”** section.

You can also add your bank details by clicking on the profile icon in the top right corner. This will open up a side menu, on this menu click on **“Add Bank (to earn)”**.

On the next page add your country of residence and click the age verification circle to confirm that you are at least 18 years old. Once you are done, click on **“Next”**.

**PURCHASED AT BUYSSELLMETHODS.COM**

**BUY OR SELL EARNING METHODS**

On the page after this you need to add your personal information:

- First name
- Last name
- Address
- City
- Post/Zip Code
- Date of birth

You can also add your Twitter and Instagram account names, but these are optional.

Below your personal information you have to upload a government issued photo ID. Under “Document Type” click and choose the ID you want to upload, you can upload the following ID types:

- Passport
- ID Card
- Driving Licence

**PURCHASED AT BUYSSELLMETHODS.COM**

**BUY OR SELL EARNING METHODS**

## Next you need to upload a photo of the ID itself and a photo of you holding the ID next to your face.

The screenshot shows a web form for ID verification. At the top, there is a navigation bar with icons for home, notifications, a leaf, an envelope, and a user profile. Below this is a 'DOCUMENT TYPE' dropdown menu with a 'Choose' option. The main section is divided into three parts: 1. 'PHOTO OF YOUR ID' with a 'Select file' button and a note: 'Please upload a photo of your picture ID Document (i.e. Passport or Driving License)'. To the right is a 'GOOD EXAMPLE' showing a clear scan of a document. 2. 'PHOTO OF HOLDING YOUR ID' with another 'Select file' button and a note: 'Please upload a photo holding your ID (i.e. a selfie, ensuring your face is clearly visible)'. To the right is another 'GOOD EXAMPLE' showing a person holding an ID. 3. 'RELEASE FORMS' section with 'ID EXPIRATION DATE' and 'EXPLICIT CONTENT' options. Under 'ID EXPIRATION DATE', there is a radio button for 'No expiration date'. Under 'EXPLICIT CONTENT', there is a radio button for 'Will you be posting sexually explicit / pornographic content?'. A blue 'Send for approval' button is located at the bottom right of the form.

When uploading your ID photos, make sure the file size isn't too large. I tried uploading a 7mb photo and it was "too large" but when I uploaded a 3mb version of the photo it was accepted, so try and keep the size under 5mb or 6mb.

Next you have to add the ID expiration date or click on the circle next to **"No expiration date"** if your ID has no expiry date. If you are uploading explicit adult content you need to tick the circle underneath **"Explicit Content"**.

Once you are done, the **"Send for approval"** button should now be blue instead of gray, click on it to submit your details. It takes 48 hours for your account to get approved. For me it took less than 24 hours for to get approved for OnlyFans.

## Add a bank account: Step 2 – Add your bank account and set your monthly subscription price

Once your account has been approved you should receive an email from OnlyFans confirming the approval and letting you know that you can now add your bank account and set your monthly subscription price.

Log into your OnlyFans account, click on the profile icon, then click on “Add Bank”, this will take you to the banking page. The default payout method is Direct Transfer through your Visa Card.

This is an Original Credit Transfer (OCT), a new payment system which is faster and cheaper than bank transfers, allowing you withdraw as little as \$20 and receive it within 3 business days.

The screenshot shows the 'BANKING' page in the OnlyFans app. At the top, there are navigation icons for home, notifications, a leaf, a mail, and a profile. Below the navigation bar, the page title is '← BANKING'. The main content area is divided into two columns. The left column is titled 'SELECTED PAYOUT SYSTEM' and features a blue box for 'Direct Transfer (OCT)'. This box contains the text: 'Receive payouts directly into your bank account via OCT payments (VISA Direct)'. Below this, it lists 'MINIMUM WITHDRAWAL \$20.00' and 'PROCESSING TIME 3 business days'. Under 'OTHER FEATURES', there are three bullet points: 'No limits on number of daily withdrawals (\$10,000.00 maximum per withdrawal)', 'Payouts are paid into your bank account via your VISA or VISA Debit card and are processed by SecurionPay', and 'VISA and VISA Debit only'. A 'Show less ^' link is at the bottom of this section. Below the 'Direct Transfer (OCT)' box is a button labeled 'Other payout options'. The right column is titled 'YOUR ACCOUNT HAS BEEN APPROVED' with a green checkmark. Below this, it says 'Set the subscription price in Settings and start promoting your OnlyFans.com profile.' Underneath is the section 'YOUR BANK CARD (VISA, VISA DEBIT)'. It has two columns: 'NAME ON THE CARD' with the subtext 'Name on the card' and 'CARD NUMBER' with the subtext 'Card Number'. Below these are fields for 'EXPIRATION (MM/YYYY)' with subfields 'MM' and 'YYYY', and 'CVC' with subfields 'CVC'. A grey box contains the text: 'These details will not be used to make charges to your account, but will only be used to payout withdrawals. Payouts will appear on your bank statement as "OnlyFans"'. At the bottom right of this section is a 'Save payout details' button. A 'VISA' logo is visible at the bottom center of the page.

**BUY OR SELL EARNING METHODS**

Under “**Direct Transfer (OCT)**” you’ll see a button called “**Other payout options**”. This will show you the remaining payout options available, currently **Direct Transfer (OCT)** and **International Bank Transfer (SWIFT)** are available.

← PAYOUT OPTIONS

<p><b>Direct Transfer (OCT)</b></p> <p>Receive payouts directly into your bank account via OCT payments (VISA Direct)</p> <p>MINIMUM WITHDRAWAL <b>\$20.00</b></p> <p>PROCESSING TIME <b>3 business days</b></p> <p>OTHER FEATURES</p> <ul style="list-style-type: none"><li>• No limits on number of daily withdrawals (\$10,000.00 maximum per withdrawal)</li><li>• Payouts are paid into your bank account via your VISA or VISA Debit card and are processed by <a href="#">SecurionPay</a></li><li>• VISA and VISA Debit only</li></ul> <p><b>CONTINUE</b></p>	<p><b>International Bank Transfer (SWIFT)</b></p> <p>Receive payouts directly into your bank account via SWIFT payments</p> <p>MINIMUM WITHDRAWAL <b>\$200.00</b></p> <p>PROCESSING TIME <b>3-5 business days</b></p> <p>OTHER FEATURES</p> <ul style="list-style-type: none"><li>• No limits on number of daily withdrawals</li><li>• Payouts are paid directly into your bank account via the international SWIFT banking system</li><li>• Any bank account</li></ul> <p><b>CONTINUE</b></p>
--	--

If you want to get paid by bank transfer instead you can choose this option, however this method only lets you withdraw money after your account has made \$200 each time, it’s can be slightly longer than Direct Transfer.

On the other hand, this method works with any bank account whilst, Direct Transfer on OnlyFans only works with Visa and Visa Debit cards.

**BUY OR SELL EARNING METHODS**

## Verdict:

If you have a Visa or Visa Debit card, stick with **Direct Transfer (OCT)**.

If you **don't** have a Visa or Visa Debit card, choose **International Bank Transfer (SWIFT)**.

Once you have chosen your payout method, fill in the details needed and click **“Save payout details”**. That's it! Now you just need to set a monthly subscription price and start getting paid. We'll cover this in the next step.

### Set a monthly subscription price

Once your OnlyFans account has been approved and your bank details have been added to your account, you can now set your monthly subscription price.

To do this, click on the profile icon in the top right corner then on the side menu go to **“My Profile”** then click on **“Edit Profile”** on your profile page.

By default your subscription price is set to **“Free”** and the minimum subscription price you can set is \$4.99.

I recommend starting off with a price range between \$9.99 – \$14.99 and running promotions for \$5.99 – \$7.99 when necessary. As time goes on you will see a pattern develop between your pricing, content and subscribers. You can then adjust your prices depending on how your account performs.

**PURCHASED AT BUYSSELLMETHODS.COM**

**BUY OR SELL EARNING METHODS**

In general you are likely to have more subscribers if your subscription price is lower but don't be afraid to charge more if you post a lot of content, especially if the content is lengthy and time consuming to produce.

You want to have a balance where it's not too expensive for new subscribers to join but you are still making enough money for it to be worthwhile. Think of it this way, if you charge \$9.99 a month and have 1,000 subscribers, you'll make \$7,992 a month after OnlyFans takes their 20% fee.

A lot of high performing OnlyFans creators have subscription fees priced at \$9.99 and even lower, so don't be afraid to start off low.

## How To Make Money On OnlyFans (Even Without Showing Your Face):

According to some sources, top earners on **OnlyFans** are pulling in tens even hundreds of thousands of dollars per month on the platform. But what if you don't have hundreds of thousands of followers already?

Can you make money with **OnlyFans** without a following? Can you make money on **OnlyFans** without social media? How about making money on **OnlyFans** as a guy, without getting naked, or getting naked (but without showing your face)? Wondering how to make money on **OnlyFans**?

**You can make money on OnlyFans by being crafty and engineering. Ways of making money on OnlyFans include collecting a monthly subscription fee from fans, charging people to attend your live streams, even creating exclusive pay per-view content.** You decide what kinds of content you want to create, you set your own rates, and the skies the limit with how to make money on OnlyFans.

In this beginner guide to making money on OnlyFans, I'm going to break down how the influencers on OnlyFans, who are actually making money, are doing it! And despite what you may think, it doesn't have to include buss'n it wide or posting nude, lewd or adult content. (Although, if you're into that — get it how ya live). Ha!

**PURCHASED AT [BUYSELLMETHODS.COM](https://buysellmethods.com)**

**BUY OR SELL EARNING METHODS**

*Here are some things you can do (that don't necessarily involve getting naked) to make money on OnlyFans.*

### **1. Teach something. Post exclusive tutorials.**

The business of selling education or online courses is booming now more than ever. Maybe you're really good at something — why not build a subscriber base of people who want to learn from you teaching them how to do that thing. Here are some ideas:

- Teach English (or another language).
- Teach how to cook or make recipes.
- Teach how to make DIY projects or crafts.

Think of all the things people teach for free on Youtube. You could do something similar on OnlyFans. You can differentiate yourself from the free stuff on Youtube by putting a special twist on it. Make your content extra valuable so that people are willing and eager to pay for it.

### **2. Post exclusive content.**

By exclusive, I mean content that you wouldn't post on say Instagram, Facebook, or Tiktok. You can decide what makes the content "exclusive". While it certainly doesn't have to be explicitly sexual in nature, it should be unique.

What kind of content or art can you create? How and why is it valuable? Why should someone pay to see this content?

**PURCHASED AT BUYSSELLMETHODS.COM**

**BUY OR SELL EARNING METHODS**

### 3. Post daily/regular workouts.

This is a great idea for OnlyFans if, for example, you're a professional personal trainer or fitness guru. Even if you're not a professional, you could certainly do some workouts for people to follow along and make money with OnlyFans. Here are some ideas..

- Host a yoga class.
- Host an afrobeats dance class.
- Teach how to roller skate.

### 4. Get “frisky”.

One way many content creators are making money on OnlyFans is by getting a little (or more than a little) frisky.

Things you can do on OnlyFans to make money include selling erotic pictures of your feet. Heck, you could even sell nude pictures of yourself without showing your face. Whether you're a guy, a girl, or even a couple (I'm not judging) — what you can do on OnlyFans to make money knows no bounds. Do you boo.

If you really want to get down and frisky, consider checking out [Frisk](#). Frisk is just like OnlyFans but in a lot of ways Frisk better. Especially so if you're looking to create adult content.

[Frisk](#) is a social media platform and app that allows users to upload photos and videos to their profile, communicate with their fans and share private content with them.

## Ways to make money on OnlyFans

The main way content creators are able to make money on **OnlyFans** is by acquiring paying monthly subscribers or followers. There are however other ways earn money on OnlyFans.

What some people who join OnlyFans without a following, for example, do is to allow access to their exclusive content to subscribers for free. They are then able to make money on OnlyFans by requesting tips or selling pay per view content individually. This could be a good strategy if you want to make money on OnlyFans anonymously without a following.

Think about it — some people may be apprehensive about paying for a subscription without having at least an idea of what they can expect from the content creator. Allowing free access entices people to follow and get to know you whilst helping to build up your following.

So to break it down, here are some of the ways to make money on OnlyFans.

### **Get paid for each monthly subscriber.**

Have fans or followers pay a monthly subscription for unlimited access to your exclusive content. This way is pretty straight forward.

### **Generate tips from the content in your feed.**

You may consider, especially if you want to grow your OnlyFans from scratch without a following, making access to your profile free. You can then make money by requesting tips from your fans if they enjoy the content you share.

**PURCHASED AT [BUYSELLMETHODS.COM](https://www.buysellmethods.com)**

**BUY OR SELL EARNING METHODS**

## **Sell super exclusive or custom content via tips in the DM's.**

You could sell pictures and videos, but you can also sell digital products such as ebooks, PDFs, or even ship physical products to your fans. OnlyFans would in that instance simply act as a sort of interactive payment processor.

## **Pay Per View messages.**

One of the best ways to make money n OnlyFans is by teasing your fans with access to pay per view content. You could even send out the locked pay per view content that your followers would need to pay to unlock.

Examples of pay per view content include photos, photo clusters (up to 20 photos), audio recording and video clips. The minimum price you can set for pay per view content is \$3.

## **Live streaming**

If you have a free OnlyFans account (your subscriber to not pay monthly fee), OnlyFans gives you the option of having payment gated streams, essentially allows you to set an entry fee to join your your stream.

The minimum “ticket price” is \$5. This is great for musicians, dancers or actors doing live performances or any creator who wants to stream something special.

Tipping is another great way to earn money on your OnlyFans live streaming. It's the same concept as super chat on Youtube.

**PURCHASED AT [BUYSELLMETHODS.COM](https://www.buysellmethods.com)**

**BUY OR SELL EARNING METHODS**

## Referral Program

To offer creators an additional way of making money, OnlyFans has an awesome referral program (which I happen to be a part of). The Referral Payout will be 5% of the Referred Creator's Earning for the first 12 months of their account.

### **How much can you make on OnlyFans?**

How much you can make on **OnlyFans** really depends. Content creators on OnlyFans can set their own pricing for their content. So in that regard, you control how much you make. You can charge for example from \$2 to \$50 per month or even more to allow people to access the content behind your pay wall.

There are content creators making upwards of \$1k, 50k, even 100k per month with OnlyFans. This however I don't think is typical, especially if you are brand new and want to make money on OnlyFans without a following. But by putting in the work and being consistent, you can certainly work your way up.

Keep in mind however that OnlyFans takes 20% of that fee as commission and gives out the rest 80% to the profile owners.

Jem Wolfe is an example of how much it's possible to make on OnlyFans, although she did start with a large following already (but don't let that deter you).

She models underwear, swimwear, sportswear and all kind of things she's "passionate about". She maintains that full nudity and explicit content is a no-go for her. I think it's also safe to bet that she couldn't have amassed such a following without showing her face.
